

FEATURES

- Precise light source with shaped light beam
- 12-24V multi-volt input
- High powered 18W 1600 lumens per bulb
- 5700-Kelvin white light
- Ultra long life 50,000HR rated lightspan
- IP68 weather proof
- Driverless design for ease of installation
- The Aviation Alloy Heatsink has been designed to optimise heat dissipation
- Plug and play directly into vehicle harness
- Optional Canbus adapter

LED HEADLIGHT CONVERSION KITS

5700K COLOUR TEMP	12V 24V 12/24 VOLT	IP68 WATERPROOF	 EASY INSTALLATION	3YR 3 YEAR WARRANTY
-----------------------------	----------------------------------	---------------------------	-----------------------	-------------------------------

Producing up to 140% more light, ROADVISION LED Headlight Conversion Kits provide a precise light source with shaped light beam. Driverless, and with plug and play directly into the vehicle harness, they are designed for ease of installation and to optimise heat dissipation. With a 5700K colour temperature, anti-corrosion aviation aluminium and aviation alloy heatsinks (no moving parts), ROADVISION LED Headlight Conversion Kits are made for rugged, offroad use and are designed to last. The Kit also includes 2 FREE 12V LED T10 park lamp bulbs!
