ROADVISION's MB1200 Series Mine Bars are purpose-built for vehicles requiring high-mounted warning lamps. Designed as a simple bolt-on solution, the MB1200 Series eliminates the need to custom mount individual components, making it easier to meet mine site requirements. Built to last, these bars utilize solid-state LED technology, delivering a maintenance-free, low-current solution that maximizes reliability and efficiency. Available in four off-the-shelf options and also offering unlimited custom-made configurations, the MB1200 Series provides the flexibility to suit any application. Durable, efficient, and easy to install, these mine bars are the ultimate solution for heavy-duty safety and compliance.
